All fiat values and prices are in AUD unless stated otherwise. Capital gains have been calculated using the FIFO accounting method (universal tax lot for each currency). Trading between cryptocurrencies is treated as a taxable event. Market prices are determined using the average market value at the time of the disposal - unless the price is provided by the trading platform or manually overridden. All dates and times are in the Australia/Sydney timezone.

Capital gains from assets that have a holding period of over 1 year (starting the day after purchase) have been marked as Long Term gains while those with a shorter holding period are Short Term gains.

This report may be used for tax purposes after it has been checked for accuracy and completeness by yourself or your tax advisor.
